ANNUAL INDEX Volume 3, 1966

January 1–56 *July 93–140*
April 57–92 *October 141–172*

SUBJECT INDEX

Bridges
Analysis of Curved Steel Girder Bridges—*Lavelle* 101
Testing of a Model Curved Steel Girder Bridge—*Clarke* 106

Castellated Beams
Measured and Computed Stresses in Three Castellated Beams—*Douty and Baldwin* 15

Columns
Column Stability in Type 2 Construction—*De Falco and Marino* 67

Connections
Design of Bolts or Rivets Subject to Combined Shear and Tension—*Zweig* 72
Plastic Design of Eccentrically Loaded Fasteners—*Abolitz* 122

Design Aids
Design Aids—Minimum Depth and Allowable Bending Stress—*Froyton* 86

Folded Plate Roofs
Steel Shell Roof Structures—*Nilson* 2

Hyperbolic Paraboloid Roofs
Steel Shell Roof Structures—*Nilson* 2

Model Testing
Small Scale Models for Steel Frameworks—*Litle* 113
Testing of a Model Curved Steel Girder Bridge—*Clarke* 106

Multi-Story Buildings
A Plastic Method for Unbraced Design—*Daniels* 141
Lehigh Conference on Plastic Design of Multi-Story Frames—A Summary—*Driscoll* 57
The Dry Floor—A New Approach to High Rise Apartment Buildings—*Newman* 161

Plastic Design
A Plastic Method for Unbraced Frame Design—*Daniels* 141
High Strength Steels for Plastic Design—*Adams* 150
Lehigh Conference on Plastic Design of Multi-Story Frames—A Summary—*Driscoll* 57
Plastic Design of Eccentrically Loaded Fasteners—*Abolitz* 122

Ponding
Ponding of Two-Way Roof Systems—*Marino* 93

Shell Structures
Steel Shell Roof Structures—*Nilson* 2

Space Frames
Stresses and Displacements in Three-Dimensional Trusses—*Kushman and Geer* 80
Analysis of Framed Space Structures—*Baer* 10

Torsion
Torsion in Closed Sections—*Siev* 46
Torsion of Rolled Steel Sections in Building Structures—*Hotchkiss* 19

Vibration
Vibration of Steel Joist-Concrete Slab Floors—*Lenzen* 133

AUTHOR INDEX

Abolitz, A. L. Plastic Design of Eccentrically Loaded Fasteners 122
Adams, Peter F. High Strength Steels for Plastic Design .. 150
Baldwin, James W. (see Douty, Richard T.)
Baer, Oliver A. Analysis of Framed Space Structures ... 10
Clarke, C. Bernard Testing of a Model Curved Steel Girder Bridge 106
Daniels, J. Hartley A Plastic Method for Unbraced Frame Design 141
De Falco, Fred and Marino, Frank J. Column Stability in Type 2 Connections 67
Douty, Richard T. and Baldwin, James W. Measured and Computed Stresses in Three Castellated Beams 15
Driscoll, George C., Jr. Lehigh Conference on Plastic Design of Multi-Story Frames—A Summary 57
Froyton, George Design Aids—Minimum Depth and Allowable Bending Stress 86
Geer, Elihu (see Kushman, Robert L.)
Hotchkiss, John C. Torsion of Rolled Steel Sections in Building Structures 19
Kushman, Robert L. and Geer, Elihu Stresses and Displacements in Three-Dimensional Trusses 80
Lavelle, Francis H. Analysis of Curved Steel Girder Bridges 101
Lenzen, Kenneth H. Vibration of Steel Joist-Concrete Slab Floors 133
Litle, William A. Small Scale Models for Steel Frameworks 113
Marino, Frank J. Ponding of Two-Way Roof Systems ... 93
Marino, Frank J. (see De Falco, Fred)
Newman, Joseph H. The Dry Floor—A New Approach to High Rise Apartment Buildings 161
Nilson, Arthur H. Steel Shell Roof Structures 2
Siev, Avinadav Torsion in Closed Sections 46
Zweig, Alfred Design of Bolts or Rivets Subject to Combined Shear and Tension 72
